BD PrepStain™ Consumable Kit, 480 Tests

SKU: 491454

The BD SurePath™ liquid-based Pap test provides advantages over conventional Pap smears and other liquid-based cytology (LBC) tests, resulting in greater disease detection.

BD Macro-Vue RPR liquid controls, 18-mm circle

SKU: 276909

BD offers several options for syphilis testing: direct immunofluorescent reagents, fluorescent treponemal antibody absorption (FTA-ABS) test reagents, RPR and VDRL antigen.

BD DIFCO™ Bottle M Butyricum Desiccated 6X100Mg

SKU: 264010

BD provides BD Difco™ Complete and Incomplete Freund's adjuvants. Our Complete adjuvants are prepared with Mycobacterium butyricum or Mycobacterium tuberculosis organisms. Often used in antigen-adjuvant emulsions, they support immunological studies with laboratory animals.

Dropper Adjuvant Incomplete Freund

SKU: 263910

BD provides BD Difco™ Complete and Incomplete Freund's adjuvants. Our Complete adjuvants are prepared with Mycobacterium butyricum or Mycobacterium tuberculosis organisms. Often used in antigen-adjuvant emulsions, they support immunological studies with laboratory animals.

Dropper Adjuvant Complete Freund

SKU: 263810

Methylene blue Loeffler reagent dropper

SKU: 261204

Catalase reagent dropper

SKU: 261203

Within our state-of-the-art ISO 9000 manufacturing center is a dedicated production area for stain reagents. A unique BD manufacturing process reduces the presence of artifacts—a chemical precipitate sometimes mistaken for microorganisms in Gram stain preparations. The end result is easier-to-read and accurate staining.

Ninhydrin

SKU: 261201

With our broad variety of diagnostic droppers, microbiologists now have a solution to the problem of perishable identification reagents and stains. Featuring reagents hermetically sealed in an ampule to protect them from chemical instability, the droppers provide shelf-life ranging from one to three years, with no refrigeration.

Nitrate B

SKU: 261198

With our broad variety of diagnostic droppers, microbiologists now have a solution to the problem of perishable identification reagents and stains. Featuring reagents hermetically sealed in an ampule to protect them from chemical instability, the droppers provide shelf-life ranging from one to three years, with no refrigeration.

Nitrate A

SKU: 261197

With our broad variety of diagnostic droppers, microbiologists now have a solution to the problem of perishable identification reagents and stains. Featuring reagents hermetically sealed in an ampule to protect them from chemical instability, the droppers provide shelf-life ranging from one to three years, with no refrigeration.

PYR

SKU: 261196

Calcofluor white

SKU: 261195

India ink

SKU: 261194

With our broad variety of diagnostic droppers, microbiologists now have a solution to the problem of perishable identification reagents and stains. Featuring reagents hermetically sealed in an ampule to protect them from chemical instability, the droppers provide shelf-life ranging from one to three years, with no refrigeration.

Voges-Proskauer B

SKU: 261193

With our broad variety of diagnostic droppers, microbiologists now have a solution to the problem of perishable identification reagents and stains. Featuring reagents hermetically sealed in an ampule to protect them from chemical instability, the droppers provide shelf-life ranging from one to three years, with no refrigeration.

Voges-Proskauer A

SKU: 261192

With our broad variety of diagnostic droppers, microbiologists now have a solution to the problem of perishable identification reagents and stains. Featuring reagents hermetically sealed in an ampule to protect them from chemical instability, the droppers provide shelf-life ranging from one to three years, with no refrigeration.

10% potassium hydroxide

SKU: 261191

With our broad variety of diagnostic droppers, microbiologists now have a solution to the problem of perishable identification reagents and stains. Featuring reagents hermetically sealed in an ampule to protect them from chemical instability, the droppers provide shelf-life ranging from one to three years, with no refrigeration.

Ferric chloride

SKU: 261190

Dobell and O'Connor's iodine

SKU: 261189

Lactophenol cotton blue

SKU: 261188

With our broad variety of diagnostic droppers, microbiologists now have a solution to the problem of perishable identification reagents and stains. Featuring reagents hermetically sealed in an ampule to protect them from chemical instability, the droppers provide shelf-life ranging from one to three years, with no refrigeration.

DMACA indole

SKU: 261187

With our broad variety of diagnostic droppers, microbiologists now have a solution to the problem of perishable identification reagents and stains. Featuring reagents hermetically sealed in an ampule to protect them from chemical instability, the droppers provide shelf-life ranging from one to three years, with no refrigeration.

Indole

SKU: 261185

With our broad variety of diagnostic droppers, microbiologists now have a solution to the problem of perishable identification reagents and stains. Featuring reagents hermetically sealed in an ampule to protect them from chemical instability, the droppers provide shelf-life ranging from one to three years, with no refrigeration.

Desoxycholate

SKU: 261183

With our broad variety of diagnostic droppers, microbiologists now have a solution to the problem of perishable identification reagents and stains. Featuring reagents hermetically sealed in an ampule to protect them from chemical instability, the droppers provide shelf-life ranging from one to three years, with no refrigeration.
