**13x75 mm 2.4 mL BD
Vacutainer® glass plasma
ESR tube**

SKU: 369741

BD is the inventor of BD Vacutainer® blood collection tubes as well as the worldwide leader in blood collection tubes. We support our products with extensive clinical expertise and educational materials to help you achieve the best possible results.

**Sodium citrate tube, .105
M/3.2%**

SKU: 369714

BD is the inventor of BD Vacutainer® blood collection tubes as well as the worldwide leader in blood collection tubes. We support our products with extensive clinical expertise and educational materials to help you achieve the best possible results.

**BD Sentry™ Safety Lancet
(Green)**

SKU: 369523

BD Sentry™ Safety Lancet brings BD quality and reliability within everyone's reach.

**13x75 mm 2.4 mL BD
Vacutainer® glass plasma
ESR tube**

SKU: 368824

BD is the inventor of BD Vacutainer® blood collection tubes as well as the worldwide leader in blood collection tubes. We support our products with extensive clinical expertise and educational materials to help you achieve the best possible results.

BD Vacutainer® Rapid Serum Tube

SKU: 368774

BD is the inventor of BD Vacutainer® blood collection tubes as well as the worldwide leader in blood collection tubes. We support our products with extensive clinical expertise and educational materials to help you achieve the best possible results.

21 G x .75 in. BD Vacutainer® UltraTouch™ Push Button Blood Collection Set with 12 in. tubing and pre-attached holder in a fully sterilized package, offering an integrated device that may simplify the phlebotomy procedure.

SKU: 368689

23 G x .75 in. BD Vacutainer® UltraTouch™ Push Button Blood Collection Set with 12 in. tubing and pre-attached holder in a fully sterilized package, offering an integrated device that may

**simplify the phlebotomy
procedure.**

SKU: 368687

BD Vacutainer® Serum Tubes

SKU: 368660

BD is the inventor of BD Vacutainer® blood collection tubes as well as the worldwide leader in blood collection tubes. We support our products with extensive clinical expertise and educational materials to help you achieve the best possible results.

**23 G x .75 in. BD Vacutainer®
Push Button Blood Collection
Set with 12 in. tubing and pre-
attached holder in a fully
sterilized package, offering an
integrated device that may
simplify the phlebotomy
procedure.**

SKU: 368656

23 G x .75 in. BD Vacutainer® Safety-Lok™ Blood Collection Set with 12 in. tubing and pre-attached holder in a fully sterilized package, offering an integrated device that may simplify the phlebotomy procedure.

SKU: 368653

21 G x .75 in. BD Vacutainer® Safety-Lok™ Blood Collection Set with 12 in. tubing and pre-attached holder in a fully sterilized package, offering an integrated device that may simplify the phlebotomy procedure.

SKU: 368652

BD Vacutainer® Eclipse™ Blood Collection Needle, 22 G x 1.25 in. black shield, with preattached holder for added convenience and OSHA single-use holder compliance.

SKU: 368651

BD Vacutainer® Eclipse™ Blood Collection Needle, 21 G x 1.25 in. green shield, with preattached holder for added convenience and OSHA single-use holder compliance.

SKU: 368650

BD Vacutainer® Eclipse™ Blood Collection Needle, 22 G x 1.25 in. black shield.

An effective way to collection blood and help reduce the possibility of accidental needlesticks, allowing for a one-handed activation technique.

SKU: 368608

BD Vacutainer® Eclipse™ Blood Collection Needle, 21 G x 1.25 in. green shield.

An effective way to collection blood and help reduce the possibility of accidental needlesticks, allowing for a one-handed activation technique.

SKU: 368607

BD Vacutainer® EDTA Tubes

SKU: 368589

BD is the inventor of BD Vacutainer® blood collection tubes as well as the worldwide leader in blood collection tubes. We support our products with extensive clinical expertise and educational materials to help you achieve the best possible results.

BD Vacutainer® Fluoride Tubes

SKU: 368587

BD is the inventor of BD Vacutainer® blood collection tubes as well as the worldwide leader in blood collection tubes. We support our products with extensive clinical expertise and educational materials to help you achieve the best possible results.

BD Vacutainer® Specialty Tubes

SKU: 368381

BD is the inventor of BD Vacutainer® blood collection tubes as well as the worldwide leader in blood collection tubes. We support our products with extensive clinical expertise and educational materials to help you achieve the best possible results.

BD Vacutainer® Specialty Tubes

SKU: 368380

BD is the inventor of BD Vacutainer® blood collection tubes as well as the worldwide leader in blood collection tubes. We support our products with extensive clinical expertise and educational materials to help you achieve the best possible results.

BD Microtainer® Quikheel™ Lancets

SKU: 368101

The safety-engineered BD Quikheel™ safety lancet helps maximize blood flow and minimize pain when performing heel sticks on newborns and babies. Its simple one-handed activation releases a surgical blade to provide a precise and consistent incision, after which the blade retracts into its casing, helping protect you and those entrusted with your care.

BD Microtainer® Quikheel™ Lancets

SKU: 368100

The safety-engineered BD Quikheel™ safety lancet helps maximize blood flow and minimize pain when performing heel sticks on newborns and babies. Its simple one-handed activation releases a surgical blade to provide a precise and consistent incision, after which the blade retracts into its casing, helping protect you and those entrusted with your care.

BD Vacutainer® PST™ Tubes

SKU: 368056

BD is the inventor of BD Vacutainer® blood collection tubes as well as the worldwide leader in blood collection tubes. We support our products with extensive clinical expertise and educational materials to help you achieve the best possible results.

BD Vacutainer® SST™ Tubes

SKU: 367989

BD is the inventor of BD Vacutainer® blood collection tubes as well as the worldwide leader in blood collection tubes. We support our products with extensive clinical expertise and educational materials to help you achieve the best possible results.

SKU: 362800

BD Vacutainer® Fluoride Tubes

SKU: 367001

BD Vacutainer® Stretch Latex Free Tourniquet

SKU: 367203

Bulk tube: Plus plastic no additive (Z) tube

SKU: 366408

BD Vacutainer® urine collection bulk products provide solutions that help collect, transport and process urine specimens.

Bulk tube: Plus plastic round-bottom tube with preservative for urinalysis

SKU: 365017

BD Vacutainer® urine collection bulk products provide solutions that help collect, transport and process urine specimens.

Bulk tube: Plus plastic conical tube with preservative for urinalysis

SKU: 364992

BD Vacutainer® urine collection bulk products provide solutions that help collect, transport and process urine specimens.

Urinalysis transfer straw kit

Transfer straw and plus plastic conical tube for urinalysis

SKU: 364991

The BD Vacutainer® Urine Transfer Straw allows the transfer of urine to one or more tubes whilst minimising healthcare worker's exposure to the specimen

Urinalysis transfer straw kit

Transfer straw and plus plastic round-bottom tube for urinalysis
SKU: 364990

The BD Vacutainer® Urine Transfer Straw allows the transfer of urine to one or more tubes whilst minimising healthcare worker's exposure to the specimen

Urinalysis cup kit

Sterile screw-cap collection cup with integrated transfer device and plus plastic conical tube for urinalysis
SKU: 364989

Closed system collection devices are designed to keep specimen protected from external contaminants, promoting reliable results for better diagnostic outcomes.

With the sterile interior of an evacuated closed system, you can encourage proper urine-to-preserved ratio to reduce the risk of culture growth in transportation.

Urinalysis cup kit

Sterile screw-cap collection cup with integrated transfer device and plus plastic round-bottom tube for urinalysis
SKU: 364981

Closed system collection devices are designed to keep specimen protected from external contaminants, promoting reliable results for better diagnostic outcomes.

With the sterile interior of an evacuated closed system, you can encourage proper urine-to-preserved ratio to reduce the risk of culture growth in transportation.

Bulk tube: Plus plastic conical tube for urinalysis

SKU: 364980

BD Vacutainer® urine collection bulk products provide solutions that help collect, transport and process urine specimens.

Bulk tube: Plus plastic round-bottom tube for urinalysis

SKU: 364979

BD Vacutainer® urine collection bulk products provide solutions that help collect, transport and process urine specimens.

Urine transfer straw

SKU: 364966

The BD Vacutainer® Urine Transfer Straw allows the transfer of urine to one or more tubes whilst minimising healthcare worker's exposure to the specimen

Bulk tube: Plus plastic C&S preservative tube

Urine collection cup with integrated transfer device

SKU: 364975

Closed system collection devices are designed to keep specimen protected from external contaminants, promoting reliable results for better diagnostic outcomes.

Urine Kits

SKU: 364959

Comprising an evacuated closed system, BD Vacutainer® Collection and Transfer Products enhance a proper urine-to-preservative ratio. In addition, the sterile interior cup with screw cap minimises the risk of leakage and sample contamination.

Complete kit

SKU: 364958

Comprising an evacuated closed system, BD Vacutainer® Collection and Transfer Products enhance a proper urine-to-preservative ratio. In addition, the sterile interior cup with screw cap minimises the risk of leakage and sample contamination.

Sterile screw-cap collection cup with integrated transfer device, 8-mL draw Plus plastic conical tube with preservative for urinalysis, 4-mL draw Plus plastic C&S preservative tube, Castile soap towelettes

SKU: 364957

Complete kit

Sterile-screw-cap collection cup with integrated transfer device, 8-mL draw Plus plastic conical tube for urinalysis, 4-mL draw Plus plastic C&S preservative tube, castile soap towelettes

SKU: 364956

BD Vacutainer® C&S Cup Kit

Sterile screw-cap collection cup with integrated transfer device, plus plastic BD Vacutainer® C&S Preservative Tube and castile soap towelettes

SKU: 364954

BD Vacutainer® C&S Transfer Straw Kit

Transfer straw and plus plastic BD Vacutainer® C&S Preservative Tube

SKU: 364953

Bulk tube: Plus plastic C&S preservative tube

SKU: 364951

Comprising an evacuated closed system, BD Vacutainer® Collection and Transfer Products enhance a proper urine-to-preservative ratio. In addition, the sterile interior cup with screw cap minimises the risk of leakage and sample contamination.

Urinalysis cup kit

Sterile screw-cap collection cup with integrated transfer device and plus plastic conical tube with preservative for urinalysis

SKU: 364946

Urinalysis transfer straw kit

Transfer straw and plus plastic conical tube with preservative for urinalysis

SKU: 364943

BD Vacutainer® Plus plastic round bottom tube for urinalysis

SKU: 364915

Urine Specimen Kits, Female, Soft PVC Catheter, Gloves, Swabs, Label, Lubricant, Towel

Kit with multiple components. Available in female configuration. Does not contain natural latex.

SKU: 0035720

**Urine Specimen Kits,
Pediatric, Soft PVC Catheter,
Gloves, Swabs, Label,
Lubricant, Towel**

Kit with multiple components. Available in pediatric configuration. Does not contain natural latex.

SKU: 0035640

**Urine Specimen Kits, Infant,
Soft PVC Catheter, Gloves,
Swabs, Label, Lubricant,
Towel**

Kit with multiple components. Available in infant configuration. Does not contain natural latex.

SKU: 0035630

**Urine Specimen Kits, Female,
Rigid PVC Catheter, Gloves,
Swabs, Label, Lubricant, No
Towel**

Kit with multiple components. Available in female configuration. Does not contain natural latex.

SKU: 0035380

Cultureswab Polyester-Tipped Swab

SKU: 263000

BD CultureSwab™ and BD CultureSwab™ Plus collection and transport systems help collect and transport aerobes and anaerobes. Numerous published studies have shown that compared to other options, BD CultureSwab swabs provide enhanced performance for microorganism recovery.¹⁻³

BD BBL Vacutainer anaerobic specimen collector

WARNING: Manufactured with dichlorofluoroethane (HCFC-141b), a substance which harms public health and environment by destroying ozone in the upper atmosphere.

SKU: 236500

BD BBL Port-A-Cul vial sterile pack

SKU: 221609

BD BBL™ Port-A-Cul™ tubes, vials and jars are intended for use in maintaining the viability of both aerobic and anaerobic microorganisms during transport from the patient to the laboratory. They contain a unique reduced transport medium with reducing agents, and feature an indicator in the medium that further assures system efficacy by continuously monitoring the environment.

BD BBL Port-A-Cul vial

SKU: 221608

BD BBL™ Port-A-Cul™ tubes, vials and jars are intended for use in maintaining the viability of both aerobic and anaerobic microorganisms during transport from the patient to the laboratory. They contain a unique reduced transport medium with reducing agents, and feature an indicator in the medium that further assures system efficacy by continuously monitoring the environment.

BD BBL Port-A-Cul tube with swabs sterile pack

SKU: 221607

BD BBL™ Port-A-Cul™ tubes, vials and jars are intended for use in maintaining the viability of both aerobic and anaerobic microorganisms during transport from the patient to the laboratory. They contain a unique reduced transport medium with reducing agents, and feature an indicator in the medium that further assures system efficacy by continuously monitoring the environment.

BD BBL Port-A-Cul tube

SKU: 221606

BD BBL™ Port-A-Cul™ tubes, vials and jars are intended for use in maintaining the viability of both aerobic and anaerobic microorganisms during transport from the patient to the laboratory. They contain a unique reduced transport medium with reducing agents, and feature an indicator in the medium that further assures system efficacy by continuously monitoring the environment.

BD BBL Port-A-Cul transport jar3-in sterile pack screw-cap jar with 1-in-wide mouth

SKU: 221602

BD BBL™ Port-A-Cul™ tubes, vials and jars are intended for use in maintaining the viability of both aerobic and anaerobic microorganisms during transport from the patient to the laboratory. They contain a unique reduced transport medium with reducing agents, and feature an indicator in the medium that further assures system efficacy by continuously monitoring the environment.

BD ESwab collection kitflexible minitip floccled swab

SKU: 220532

The BD ESwab™ collection and transport system helps collect clinical specimens containing aerobic, anaerobic and fastidious bacteria from the collection site, and transport them to the testing laboratory. In the lab, BD ESwab™ specimens are processed using standard clinical lab operating procedures for bacterial culture. The unique design of the floccled swab ensures optimal elution of the specimen into the transport medium.

BD UVT 3-mL collection kitwith flexible minitip flocked swab

SKU: 220531

The BD universal viral transport (UVT) system is designed to transport viruses, chlamydiae, mycoplasmas and ureaplasmas at room temperature. It is one of the only systems that may be stored and transported at 2°C to 25°C—all in one formulation.

BD UVT 3-mL collection kitwith minitip flocced swab

SKU: 220529

The BD universal viral transport (UVT) system is designed to transport viruses, chlamydiae, mycoplasmas and ureaplasmas at room temperature. It is one of the only systems that may be stored and transported at 2°C to 25°C—all in one formulation.

BD UVT 3-mL collection kitwith regular flocced swab

SKU: 220528

The BD universal viral transport (UVT) system is designed to transport viruses, chlamydiae, mycoplasmas and ureaplasmas at room temperature. It is one of the only systems that may be stored and transported at 2°C to 25°C—all in one formulation.

BD UVT 3-mL collection kitwith regular and flexible minitip flocced swab

SKU: 220527

The BD universal viral transport (UVT) system is designed to transport viruses, chlamydiae, mycoplasmas and ureaplasmas at room temperature. It is one of the only systems that may be stored and transported at 2°C to 25°C—all in one formulation.

BD UVT 1-mL collection kit with flexible minitip flocced swab

SKU: 220526

The BD universal viral transport (UVT) system is designed to transport viruses, chlamydiae, mycoplasmas and ureaplasmas at room temperature. It is one of the only systems that may be stored and transported at 2°C to 25°C—all in one formulation.

BD sterile pack swab for environmental monitoring

SKU: 220518

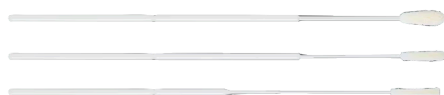

BD sterile pack swabs are double-wrapped, gamma-irradiated, ready-to-use sterile swabs for surface sampling, combined with a rinse solution-filled tube.

Screw cap tube with 2ml modified Cary-Blair medium, one regular flocced swab

SKU: 220258

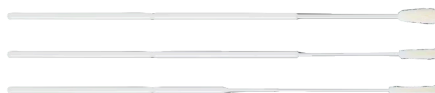

Collection and preservation system for enteric bacteria diagnostics

Flexible minitip flocced swab

SKU: 220252

Our flocced swabs feature perpendicular nylon fibers that optimize specimen collection and elution into transport media. The swabs also feature a molded breakpoint that allows you to safely and easily break off the swabstick, and several breakpoint options are available for different tubes.

Minitip flocced swab

SKU: 220251

Our flocced swabs feature perpendicular nylon fibers that optimize specimen collection and elution into transport media. The swabs also feature a molded breakpoint that allows you to safely and easily break off the swabstick, and several breakpoint options are available for different tubes.

Regular flocced swab

SKU: 220250

Our flocced swabs feature perpendicular nylon fibers that optimize specimen collection and elution into transport media. The swabs also feature a molded breakpoint that allows you to safely and easily break off the swabstick, and several breakpoint options are available for different tubes.
