OTW CTO Device

SKU: XCTO146

The BD Recanalization System (Console and Footswitch) includes a non-sterile, reusable Console with an integrated roller pump, user interface and a Footswitch.

The Crosser iQ™ Ultrasonic CTO Device is connected to the BD Recanalization System Console via the power cord, through which power is converted into high-frequency ultrasonic mechanical vibrations to the tip of the device.

Designed to help cross peripheral arterial CTOs intraluminally
Automatically and selectively ablates plaque, while remaining atraumatic to elastic tissue
Simple, "plug-and-play" system

Usher™ Support Catheter

SKU: USH83T

Single lumen catheter with standard luer fitting hub and separate hemostatic valve to support the Crosser™ CTO Recanalization Catheters Tapered and available in straight and angled tip configurations

Usher™ Support Catheter

SKU: USH83AT

Single lumen catheter with standard luer fitting hub and separate hemostatic valve to support the Crosser™ CTO Recanalization Catheters Tapered and available in straight and angled tip configurations

Usher™ Support Catheter

SKU: USH130T

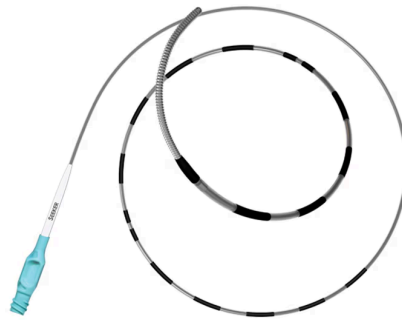

Single lumen catheter with standard luer fitting hub and separate hemostatic valve to support the Crosser™ CTO Recanalization Catheters Tapered and available in straight and angled tip configurations

Usher™ Support Catheter

SKU: USH130AT

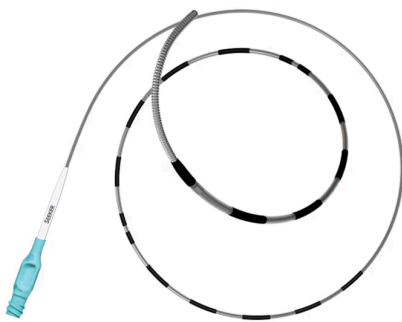

Single lumen catheter with standard luer fitting hub and separate hemostatic valve to support the Crosser™ CTO Recanalization Catheters Tapered and available in straight and angled tip configurations

Seeker™ Crossing Support Catheter - 0.035" guidewire compatible and 90 cm long

SKU: SK9035M

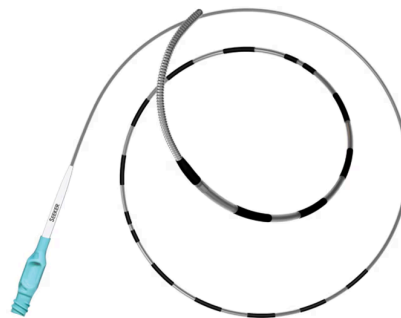

The Seeker™ Crossing Support Catheter is a catheter consisting of an over-the wire catheter with a fixed hub. Radiopaque markers delineate the distal tip of the catheter and aid in the catheter placement as well as lesion length measurement. The catheter includes an atraumatic tip to facilitate advancement of the distal tip of the catheter to and through the peripheral vasculature stenosis and chronic total occlusions. The catheter contains a hydrophilic coating that is intended to provide lubricity.

Seeker™ Crossing Support Catheter - 0.018" guidewire compatible and 90 cm long

SKU: SK9018

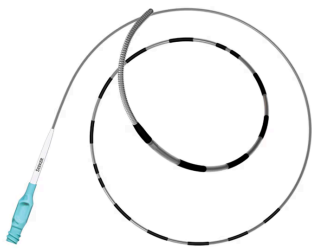

Wire Compatibility	0.018 in
Length	90

Seeker™ Crossing Support Catheter - 0.035" guidewire compatible and 65 cm long

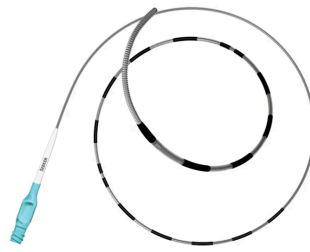

SKU: SK6535M

The Seeker™ Crossing Support Catheter is a catheter consisting of an over-the wire catheter with a fixed hub. Radiopaque markers delineate the distal tip of the catheter and aid in the catheter placement as well as lesion length measurement.

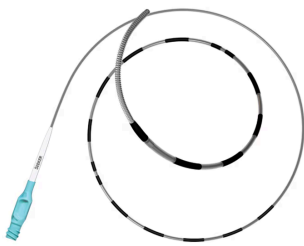

Seeker™ Crossing Support Catheter - 0.035\" guidewire compatible and 150 cm long
SKU: SK15035M

The Seeker™ Crossing Support Catheter is a catheter consisting of an over-the wire catheter with a fixed hub. Radiopaque markers delineate the distal tip of the catheter and aid in the catheter placement as well as lesion length measurement.

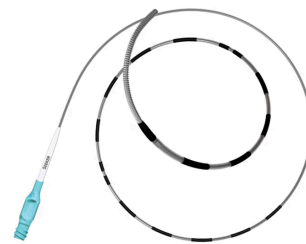

Seeker™ Crossing Support Catheter - 0.018\" guidewire compatible and 150 cm long
SKU: SK15018

The Seeker™ Crossing Support Catheter is a catheter consisting of an over-the wire catheter with a fixed hub. Radiopaque markers delineate the distal tip of the catheter and aid in the catheter placement as well as lesion length measurement.

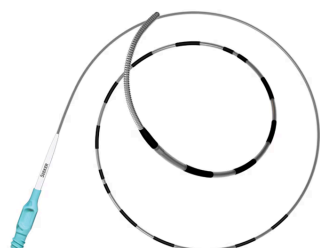

Seeker™ Crossing Support Catheter - 0.014\" guidewire compatible and 150 cm long
SKU: SK15014

The Seeker™ Crossing Support Catheter is a catheter consisting of an over-the wire catheter with a fixed hub. Radiopaque markers delineate the distal tip of the catheter and aid in the catheter placement as well as lesion length measurement.

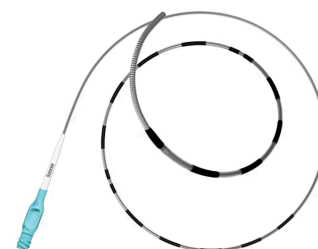

Seeker™ Crossing Support Catheter - 0.035\" guidewire compatible and 135 cm long
SKU: SK13535M

The Seeker™ Crossing Support Catheter is a catheter consisting of an over-the wire catheter with a fixed hub. Radiopaque markers delineate the distal tip of the catheter and aid in the catheter placement as well as lesion length measurement.

Seeker™ Crossing Support Catheter - 0.018\" guidewire compatible and 135 cm long
SKU: SK13518

Seeker™ Crossing Support Catheter - 0.014\" guidewire compatible and 135 cm long
SKU: SK13514

Sidekick™ Support Catheter

SKU: SD70T

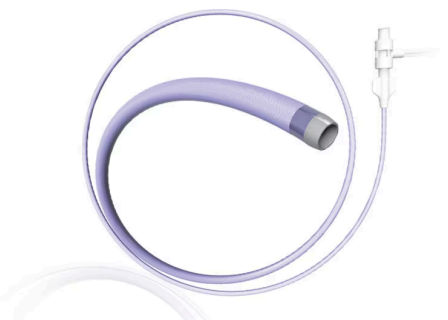

Stainless steel, braided shaft construction to support catheter pushability and torquability
Angled tip configuration available
Hemostatic valve offering complete hemostasis to minimize blood loss
Enhanced angle retention to steer the Crosser™ CTO Catheter tip towards flush occlusions or lesions on an angle

Sidekick™ Support Catheter

SKU: SD70AT

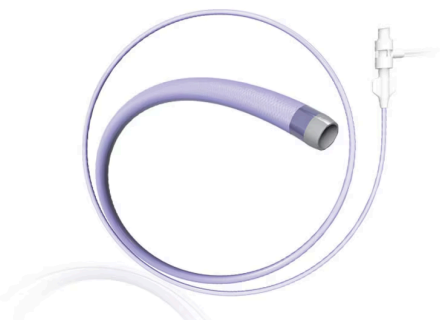

Stainless steel, braided shaft construction to support catheter pushability and torquability
Angled tip configuration available
Hemostatic valve offering complete hemostasis to minimize blood loss
Enhanced angle retention to steer the Crosser™ CTO Catheter tip towards flush occlusions or lesions on an angle

Sidekick™ Support Catheter

SKU: SD70A

Stainless steel, braided shaft construction to support catheter pushability and torquability
Angled tip configuration available
Hemostatic valve offering complete hemostasis to minimize blood loss
Enhanced angle retention to steer the Crosser™ CTO Catheter tip towards flush occlusions or lesions on an angle

Sidekick™ Support Catheter

SKU: SD70

Stainless steel, braided shaft construction to support catheter pushability and torquability
Angled tip configuration available
Hemostatic valve offering complete hemostasis to minimize blood loss
Enhanced angle retention to steer the Crosser™ CTO Catheter tip towards flush occlusions or lesions on an angle

Sidekick™ Support Catheter

SKU: SD110T

Sidekick™ Support Catheter

SKU: SD110AT

Sidekick™ Support Catheter

SKU: SD110A

Sidekick™ Support Catheter

SKU: SD110

Crosser™ Catheter S6 154cm

SKU: CRUS6A

Crosser™ Catheter S6 106cm

SKU: CRUS6106

Crosser™ Catheter 14S RX
106cm

SKU: CRUS106

Crosser™ Catheter 14S OTW
106cm

SKU: CRUOS106

Crosser™ Catheter 14S OTW

SKU: CRUO14SA

Crosser™ Catheter 14S RX

SKU: CRU14SA

BD Recanalization System*

SKU: BDRECANSYSTEM

Aspirex™ Drive System

SKU: 80300
