StatLock™ PICC Plus Stabilization Device - Butterfly Sliding Posts, Foam

SKU: VPPBSP

Combining the latest in design and engineering technology, StatLock™ PICC Plus Stabilization Device releasably secures most winged-catheters on the market.

Just lift the transparents "gull-wings," place catheter wings over the posts, and close.

Anchor pad available in breathable, nonabsorbent tricot polyester or closed cell foam.

Sterile and latex-free.

StatLock™ PICC Plus Stabilization Device - Butterfly Fixed Posts, Foam

SKU: VPPBFP

Combining the latest in design and engineering technology, StatLock™ PICC Plus Stabilization Device releasably secures most winged-catheters on the market.

Just lift the transparents "gull-wings," place catheter wings over the posts, and close.

Anchor pad available in breathable, nonabsorbent tricot polyester or closed cell foam.

Sterile and latex-free.

StatLock™ Neonate II Stabilization Device- Tube/Catheter Stabilization Device

SKU: VNN2

The StatLock™ Neonatal II Stabilization Device can be used to secure virtually all tubes and catheters used in the NICU, including peripheral IVs, umbilical vessel catheters, and feeding tubes.

StatLock™ Multi-Purpose Stabilization Device, Pediatric, Tricot Anchor Pad, 2.5 in Crescent

SKU: VMPDC

Flexible 2" nylon strands and "no-knot" locking device ensure rapid stabilization.

StatLock™ Stabilization Device, Intima Plus SKU: VIFP4

Custom crafted to fit Becton Dickinson's Intima™ and Saf-T Intima™ catheters.

The StatLock™ Stabilization Device is designed to replace tape securement and limit catheter micro-motion.

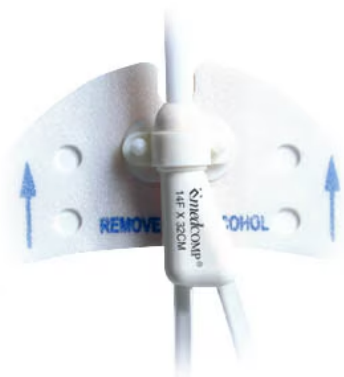

StatLock™ Stabilization Device, Hemodialysis SKU: VHD

Features a releasable proprietary retainer with an integrated, adhesive core.

Anchor pad is made of a breathable tricot polyester, absorbent hydrocolloid.

Features skin safe, hypoallergenic, adhesive system.

First StatLock™ for BD First PICC™, Foam Anchor Pad, Fixed Posts SKU: VFS

StatLock™ Stabilization Devices are a more effective and productive alternative to tape in helping improve clinical outcomes, quality of care and economic efficiencies.

StatLock™ Epidural Stabilization Device, 6\"/>

Designed to prevent dislodgement problems that interrupt therapy, the StatLock™ Epidural Stabilization Device features an anterior pad (worn on the chest) to prevent catheter disconnection and a posterior crescent pad to prevent dislodgment and migration.

StatLock™ Epidural Stabilization Device, Epidural Crescent Pad Only

SKU: VEDC

Designed to prevent dislodgement problems that interrupt therapy, the StatLock™ Epidural Stabilization Device features an anterior pad (worn on the chest) to prevent catheter disconnection and a posterior crescent pad to prevent dislodgment and migration.

StatLock™ Dialysis II Stabilization Device

SKU: VDS2

Features a releasable proprietary retainer with an integrated, adhesive core.

StatLock™ CV Plus Stabilization Device, Pigtail Retainer Only

SKU: VCDPS

The StatLock™ CV Plus Stabilization Device is a "post and door" design to house the suture wings, along with a "pigtail" pad to retain and organize the catheter lumens.

Available in adult and paediatric sizes.

StatLock™ CV Plus Stabilization Device, Pediatric, Foam, Sliding Post, Pigtail Retainer

SKU: VCDPP

Innovative teddy bear, foam, anchor-pad design. Sterile and latex-free.

StatLock™ CV Plus Stabilization Device Crescent

SKU: VCDPC

StatLock™ CV Plus Stabilization Device Butterfly

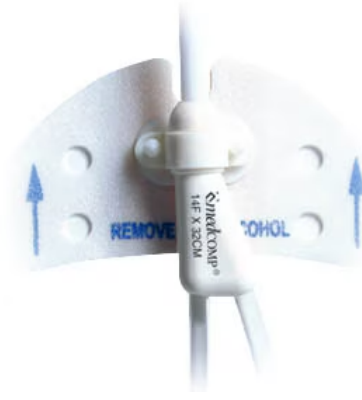

SKU: VCDP

StatLock™ PICC II Foam Anchor Pad, Fixed Posts

SKU: VCDC2

StatLock™ Stabilization Devices are a more effective and productive alternative to tape in helping improve clinical outcomes, quality of care and economic efficiencies.

StatLock™ PICC Foam Anchor Pad, Fixed Posts

SKU: VCDC

StatLock™ Stabilization Devices are a more effective and productive alternative to tape in helping improve clinical outcomes, quality of care and economic efficiencies.

StatLock™ Arterial Stabilization Device - Crescent

SKU: VADC2

The color-coded red retainer, designed for patient safety, is the most sophisticated StatLock® Stabilization Device retainer ever. Unique entry angle of retainer is designed to prevent catheter kinking, which could lead to occlusion.

The precision molded, ergonomic retainer can be opened and closed while in place, allowing for tubeset changes whenever necessary.

The StatLock® Arterial Plus Stabilization Device fits adult and pediatric (over 18 months) patients.

Breathable anchor pad made from nonabsorbent tricot polyester.

Sterile, DEHP-free and latex-free.

StatLock™ Arterial Stabilization Device, Crescent

SKU: VADC

The color-coded red retainer, designed for patient safety, is the most sophisticated StatLock® Stabilization Device retainer ever. Unique entry angle of retainer is designed to prevent catheter kinking, which could lead to occlusion.

The precision molded, ergonomic retainer can be opened and closed while in place, allowing for tubeset changes whenever necessary.

The StatLock® Arterial Plus Stabilization Device fits adult and pediatric (over 18 months) patients.

Breathable anchor pad made from nonabsorbent tricot polyester.

Sterile, DEHP-free and latex-free.

StatLock™ Arterial Stabilization Device for Arrow™ Catheters - Crescent

SKU: VADAC

StatLock™ Stabilization Devices are a more effective alternative to tape in helping improve clinical outcomes, quality of care and economic efficiencies. The StatLock™ Arterial Arrow™ Stabilization Device is designed specifically for Arrow™ International's 4020 radial artery catheter and features patented "high-low" technology.

Securis™ Stabilization Device Start Kit Option 2

SKU: SK00002

The Securis™ Stabilization Device was designed to secure non-winged PIVC catheters and minimize skin irritation.

Securis™ Stabilization Device Start Kit Option 1

SKU: SK00001

The Securis™ Stabilization Device was designed to secure non-winged PIVC catheters and minimize skin irritation.

Securis™ Stabilization Device Single Sterile

SKU: SEC0100

The Securis™ Stabilization Device was designed to secure non-winged PIVC catheters and minimize skin irritation.

Statlock® PICC/CVC Stabilization Device Dressing Change Kit

SKU: PICK0115

Includes all of the necessary components, in one convenient package.
Available in a variety of kit configurations to meet the clinical needs of a nursing staff.
Antimicrobial disk included with some kit configurations.

Statlock® PICC/CVC Stabilization Device Dressing Change Kit, Tricot

SKU: PICK0114

Includes all of the necessary components, in one convenient package.
Available in a variety of kit configurations to meet the clinical needs of a nursing staff.
Antimicrobial disk included with some kit configurations.

StatLock PICC and CVC Dressing Change Kit

SKU: PICK0113

Includes all of the necessary components, in one convenient package.
Available in a variety of kit configurations to meet the clinical needs of a nursing staff.
Antimicrobial disk included with some kit configurations.

StatLock® PICC/CVC Plus Stabilization Device Dressing Change Kit

SKU: PICK0112

Includes all of the necessary components, in one convenient package.
Available in a variety of kit configurations to meet the clinical needs of a nursing staff.
Antimicrobial disk included with some kit configurations.

StatLock® PICC/CVC Plus Stabilization Device Dressing Change Kit

SKU: PICK0111

Includes all of the necessary components, in one convenient package.
Available in a variety of kit configurations to meet the clinical needs of a nursing staff.
Antimicrobial disk included with some kit configurations.

StatLock® PICC/CVC Plus Stabilization Device Dressing Change Kit

SKU: PICK0110

Includes all of the necessary components, in one convenient package.
Available in a variety of kit configurations to meet the clinical needs of a nursing staff.
Antimicrobial disk included with some kit configurations.

StatLock® PICC/CVC Plus Stabilization Device Dressing Change Kit

SKU: PICK0108

StatLock® PICC/CVC Plus Stabilization Device Dressing Change Kit

SKU: PICK0107

StatLock® PICC/CVC Plus Stabilization Device Dressing Change Kit

SKU: PICK0106

Includes all of the necessary components, in one convenient package.

Available in a variety of kit configurations to meet the clinical needs of a nursing staff.

Antimicrobial disk included with some kit configurations.

StatLock® PICC/CVC Plus Stabilization Device Dressing Change Kit

SKU: PICK0105

Includes all of the necessary components, in one convenient package.

Available in a variety of kit configurations to meet the clinical needs of a nursing staff.

Antimicrobial disk included with some kit configurations.

StatLock® PICC/CVC Plus Stabilization Device Dressing Change Kit

SKU: PICK0104

Includes all of the necessary components, in one convenient package.
Available in a variety of kit configurations to meet the clinical needs of a nursing staff.
Antimicrobial disk included with some kit configurations.

StatLock® PICC/CVC Plus Stabilization Device Dressing Change Kit

SKU: PICK0103

Includes all of the necessary components, in one convenient package.
Available in a variety of kit configurations to meet the clinical needs of a nursing staff.
Antimicrobial disk included with some kit configurations.

StatLock® CV Plus Stabilization Device Dressing Change Kits

SKU: PICK0102

Includes all of the necessary components, in one convenient package.
Available in a variety of kit configurations to meet the clinical needs of a nursing staff.
Antimicrobial disk included with some kit configurations.

StatLock® PICC Plus Stabilization Device Dressing Change Kits

SKU: PICK0101

Includes all of the necessary components, in one convenient package.
Available in a variety of kit configurations to meet the clinical needs of a nursing staff.
Antimicrobial disk included with some kit configurations.

StatLock® PICC Plus Stabilization Device Dressing Change Kits

SKU: PICK0100

Includes all of the necessary components, in one convenient package.
Available in a variety of kit configurations to meet the clinical needs of a nursing staff.
Antimicrobial disk included with some kit configurations.

StatLock™ PICC Plus Stabilization Device, Tricot Anchor Pad, Fixed Posts

SKU: PIC0222

Combining the latest in design and engineering technology, StatLock™ PICC Plus Stabilization Device releasably secures most winged-catheters on the market.

StatLock™ PICC Neonate Stabilization Device, Universal

SKU: NN0300

The StatLock™ PICC Universal Neonate Stabilization Device offers gentle securement on neonatal skin.
Designed to minimize catheter motion and reduce complications while increasing patient comfort.
The StatLock™ PICC Universal Neonate Stabilization Device is simple, safe and effective.

StatLock™ PICC Stabilization Device, Neonate, Accommodates a variety of PICC and CVD catheters

SKU: NN0202

The StatLock™ PICC Universal Neonate Stabilization Device offers gentle securement on neonatal skin.
Designed to minimize catheter motion and reduce complications while increasing patient comfort.
The StatLock™ PICC Universal Neonate Stabilization Device is simple, safe and effective.

**StatLock™ PICC II
Stabilization Device, Neonate
for BD®/Tyco® PICC
catheters**

SKU: NN0201

The StatLock™ PICC Universal Neonate Stabilization Device offers gentle securement on neonatal skin. Designed to minimize catheter motion and reduce complications while increasing patient comfort. The StatLock™ PICC Universal Neonate Stabilization Device is simple, safe and effective.

**StatLock™ PICC
Stabilization Device, Neonate
for Vygon® PICC catheters**

SKU: NN0200

The StatLock™ PICC Universal Neonate Stabilization Device offers gentle securement on neonatal skin. Designed to minimize catheter motion and reduce complications while increasing patient comfort. The StatLock™ PICC Universal Neonate Stabilization Device is simple, safe and effective.

**StatLock™ Stabilization
Device Multi-Purpose 5 in
Tricot**

SKU: MP0120

**StatLock™ IV Select
Stabilization Device Start Kit,
Macro 6 in, Frepp®**

SKU: IVK0177

**StatLock™ IV Select
Stabilization Device Kit,
Micro Extension Set, 6 in
Micro Clave**

SKU: IVK0166

Universally compatible with most peripheral IV catheters.

Entry angle of retainer is designed to prevent catheter kinking, which could lead to occlusion.

Includes patented luer-lock extension set – just snap the retainer over the custom-crafted luer, peel and place.

Breathable anchor pad made from non-absorbent tricot polyester.

Sterile, DEHP-free and Latex-free.

**StatLock™ IV Select
Stabilization Device Kit,
Macro Extension Set, 6 in
Micro Clave**

SKU: IVK0154

**StatLock™ IV Select
Stabilization Device Kit,
Pediatric, 6 in Micro
Extension Set, SmartSite™
Valve**

SKU: IVK0153

**StatLock™ IV Select
Stabilization Device Kit,
Micro, SmartSite™ Valve,
Frepp with Gloves**

SKU: IVK0146

**StatLock™ IV Select
Stabilization Device Kit,
Macro, SmartSite™ Valve, Y
set with Gloves**

SKU: IVK0145

**StatLock™ IV Select
Stabilization Device Kit, 6 in
Macro Extension Set,
SmartSite™ Valve, Frepp®**

SKU: IVK0136

**StatLock™ IV Select
Stabilization Device Kit, 6 in
Micro Extension Set,
SmartSite™ Valve, Frepp®**

SKU: IVK0135

Universally compatible with most peripheral IV catheters.

Entry angle of retainer is designed to prevent catheter kinking, which could lead to occlusion.

Includes patented luer-lock extension set – just snap the retainer over the custom-crafted luer, peel and place.

Breathable anchor pad made from non-absorbent tricot polyester.

Sterile, DEHP-free and Latex-free.

**StatLock™ IV Select
Stabilization Device Start Kit,
Macro 6 in SmartSite, Frepp®**

SKU: IVK0133

Universally compatible with most peripheral IV catheters.

Entry angle of retainer is designed to prevent catheter kinking, which could lead to occlusion.

Includes patented luer-lock extension set – just snap the retainer over the custom-crafted luer, peel and place.

Breathable anchor pad made from non-absorbent tricot polyester.

Sterile, DEHP-free and Latex-free.
